

## HAG Capisco 8126

### DESCRIPTION

The HAG Capisco 8126 has a shorter round seat compared to the saddle seat of the HAG Capisco 8106. The shape and design of the HAG Capisco makes it a unique chair, as it is one of the very few sit-stand chairs designed for sitting, perching and standing. This enables a user to sit in normal seated position and perch in a raised position.

The HAG Capisco 8126 round seat makes it easier to sit cross-legged or in a perched position. It can be used easily with normal desk and a sit-stand desk heights. Not only the depth and height of the chair are adjustable, but the back height is also adjustable. The tilt of the chair is also adjustable and lockable. With standard gas lift, the base of the sit stand chair comes in two colours black or silver.

### Delivery and Return

#### Delivery

In stock items will be dispatched within 24hrs. Please allow 2-4 days for delivery.

Box delivery with our courier.
