Connecting

INSTALLATION

Connect the supplied cable to the socket on the left side of your Mousetrappet, and connect the other end to a USB port on the computer. Once installed, your Mousetrappet and its buttons will operate as shown in figure 2.

CHANGING FROM MAC TO PC

CONFIGURATION

The product is configured for PC on delivery. To configure it for Mac, simultaneously depress the lower right button and the lower left button (Copy and Paste) for 3–4 seconds. The LED will flash red to confirm the configuration. Repeat the procedure to change back to PC configuration.

Basic tips

POSITIONING

Position your Mousetrappet between you and your keyboard. The space bar on the keyboard should be directly in front of the control pad, as shown in figure 1. If you have a low keyboard, unfold the keyboard support from underneath your Mousetrappet and place the keyboard on top of it.

SCROLLING

To scroll using the control pad, place your finger on the right edge of the control pad. There is no need to press on the control pad, simply slide your finger up or down the edge, depending on which way you want to scroll.

REPLACEMENT OF PADS

The pads can be replaced when they are worn out. To remove a pad, insert a flat tool between the frame and the Mousetrappet and gently prise the frame/pad out of the Mousetrappet. You can order new pads via your dealer or directly from Mousetrappet.

Customising

MTKEYS

To customise the button functions, go to mousetrappet.com/mtkeys and download the software. Then follow the instructions. If you have Windows 10, you can download MTKeys from Microsoft Store.

When you have downloaded MTKeys, an image of the product will appear that matches the image underneath your Mousetrappet. Position the cursor over the button you want to customise. Click on it by lightly pressing the control pad once. You will see a pull-down menu that lets you assign whichever action you want to that button. You can choose between functions such as adding an extra left-click, creating shortcuts and inserting text by pasting it in.

Aansluiten

INSTALLATIE

Sluit de meegeleverde USB-kabel links aan op de Mousetrapperr en sluit het andere uiteinde aan op een USB-poort op de computer. Na installatie functioneren uw Mousetrapperr en knoppen volgens afbeelding 2.

SCHAKELEN TUSSEN MAC EN PC

Bij aflevering is het product ingesteld op PC. Om over te schakelen naar de Mac-stand drukt u de onderste rechterknop en de onderste linkerknop (Copy en Paste) 3-4 seconden tegelijkertijd in. Het LED-lampje knippert rood om de instelling te bevestigen. Herhaal de procedure om terug te schakelen naar de PC-stand.

Basistips

PLAATSING

Plaats de Mousetrapperr tussen uzelf en uw toetsenbord. De spatiebalk van het toetsenbord moet zich recht voor de stuurpleg bevinden, zoals wordt aangegeven op afbeelding 1. Als u met een plat toetsenbord werkt, vouwt u de toetsenbordmat van uw Mousetrapperr uit en plaatst u uw toetsenbord hierop.

SCROLLEN

Om te scrollen met de stuurpleg, plaatst u uw vinger rechts op de stuurpleg. U hoeft de stuurpleg niet in te drukken, schuif uw vinger naar boven of beneden, afhankelijk van de gewenste scrollrichting.

KUSSENS VERVANGEN

Versleten kussens kunnen worden vervangen. U kunt de kussens verwijderen door een plat gereedschap tussen het frame en de Mousetrapperr te plaatsen en het frame/kussen voorzichtig uit de Mousetrapperr te klikken. Nieuwe kussens bestelt u via uw leverancier of direct bij Mousetrapperr.

Aanpassen

MTKEYS

Voor aanpassing van de knopfuncties gaat u naar Mousetrapperr.com/mtkeys en downloadt u de software. Volg daarna de instructies. Als u gebruikmaakt van Windows 10, downloadt u MTKeys in de Microsoft Store.

Na het downloaden van MTKeys wordt er een afbeelding van het product getoond die overeenkomt met de afbeelding onder op uw Mousetrapperr. Plaats de cursor op de knop die u wilt aanpassen. Klik erop door de stuurpleg één keer licht in te drukken. Er verschijnt dan een vervolgkeuzelijst waarin u de actie kunt toewijzen die u aan de knop wilt geven. Voorbeelden van acties die u kunt toewijzen: klikken met de linkermuisknop, snelkoppelingen maken en het invoegen van tekst die u vervolgens kunt plakken.

Responsible party name: Mousetrapperr North America Inc.
www.mousetrapperr.com
info@mousetrapperr.com

Hereby declares that the
Product: Mousetrapperr (HID mouse/keyboard)
Model name: Advance 2.0

Conforms to the following specifications:
 FCC 47 CFR 15: Radio frequency device, subpart B:
 Unintentional radiators. Class B Equipment.

ICES-003 Issue 6: Information technology equipment- Limits and methods of measurement, Class B.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

This equipment referenced in this declaration is identical to the unit tested and found acceptable with the standards. The technical records maintained by the responsible party continue to reflect the equipment being produced under this Declaration of Conformity within the variation that can be expected due to quantity production and testing on a statistical basis.

DISCLAIMER AND LIMITATION OF LIABILITY

This product (the Product) has been manufactured by or on behalf of Trapper Data AB, Swedish Reg. No. 556872-7597 And its group companies (Trapper Data). As between Trapper Data and the user, the following shall – to the fullest extent permitted by applicable law – apply: The Product is provided "as is" without warranty of any kind (either express or implied), including but not limited to any implied warranties of merchantability and fitness for a specific or general purpose and those arising by statute or by law, or from a cause of dealing or usage of trade. Trapper Data shall have no obligations whatsoever to repair, replace or service the Product in any manner or to provide the user with any future upgrades to the Product, if any. The user is solely responsible for the use of the Product. In no event, regardless of cause, shall Trapper Data be liable for any direct, indirect, special, incidental, punitive or consequential damages of any kind, whether arising under breach of contract, tort (including negligence), strict liability or otherwise, and whether based on agreement or otherwise, even if advised of the possibility of such damages. Trapper Data makes no claim or representation that the Product will prevent, cure, or mitigate any medical condition, disease, injury, pain or discomfort for all users.
